Ho ho ho

****Christmas, Christmas, CHRISTMAS! Sorry I'm a little bit excited (understatement). This was a quick ten minute fic so it might not be very good but anyhoo, read it review it and if please want me too I'll update it :) Merry Christmas!_>****

"Not again" Yelled Raven with frustration as she threw her blackbox to the floor,

"Am I being hurtful?" Questioned H.I. /overlord with a Christmas hat on.

"H.I. , have you looked at yourself?" She said with a sigh.

"That I'm afraid is one thing I cannot do, what is it?"

"Doesn't matter" she said pocketing her blackbox. She was going to find Otto. As she paced the corridors rapidly Nero fell into step beside her,

"Raven have you seen H.I. he'sâ€" "

"I'm dealing with it"

"Who did it?"

Raven turned to face him with a sarcastic smile, "who do you thing did it?". Nero put on his deep thought face pinching the bridge of his nose with his fingers,

"Sometimes I despair" said Raven rolling her eyes, "who else would do

it. Otto!"

"Oh" said Nero in an over the top way.

"You should find Pike, he might be able to deal with this" Raven said as she reached a fork in the corridor, "I'm going to find Otto".

Raven burst into accommodation area seven, eyes sweeping the area systematically. A few students turned to look at her questionably but for the most part she remained unnoticed. Then she spotted Otto and his friends in the far corner of the atrium on a group of sofas that surrounded what looked like an old fashioned record player. As she approached she heard a loud rendition of jingle bells rock, Shelby saw Raven first and grinned. Otto still hadn't noticed Raven but Raven could hear Shelby saying,

"Shit's happening". Otto still looked confused. Then Shelby wipped off the record and replaced it with another in one swift move. Suddenly not only the corner but the whole atrium boomed with sound, it was cowboy stand off music. Raven resisted the urge so say 'really' and closed the final few steps up to Otto.

"You are in deep trouble Mr Malpense" Raven said with a frown the sound of the music was hurting her ears. Unable to stand it she grabbed the disk off the record player and snapped it in two.

"What have I done?" Said Otto astonished. Raven scrutinised his face and was surprised to see he wasn't lying.

"You've seen H.I. right?" Raven said suspiciously,

"Yeah"

"Then who did it". Raven's head snapped round to see Laura and Shelby in fits of silent laughter, "do you know?" She snapped at them. Shelby was the only one who could stop laughing enough to answer,

"There only one other person who could have done it"

"Who?"

"H.I. ". Raven cursed her self for not thinking of this but it wasn't her fault, AIs were notoriously difficult to read. Then Shelby put the Christmas music on again and there was two things in her head, why oh why were they playing the Rod Stewart version of let it snow?

I know H.I. has been shortened to H.I. but I can't seem to change it. Oh well. Review!
